▶ A sturdy carrying case protects the machine in transit

▲ Adjustable pressure of presser foot makes it easy to stitch wrinkle-free seams even on the most elastic of materials

◀ Stitchmaster's latest technology makes needle threading quick and easy

◀ Top loading full rotary hook system for smooth, quiet operation while your stitches are formed perfectly. This configuration also makes changing the bobbin faster and easier

◀ The sewing table extension is easily removed for free arm sewing on cuffs and hard to reach areas

◀ A backlit LCD screen shows which mode the machine is in and what tasks it is performing

◀ Easy to use start/stop, slow, reverse and needle up/down controls

▲ Top winding bobbin

▼ Choosing from the 110 built in stitches is easy with the illuminated control panel
