

Impression 2000

W

hen you need to sew you want it to be an enjoyable experience, packed with fun. This is where the Impression 2000 has been created with you in mind. This computerised sewing machine will fulfil all of your needs.

The easy to use, compact and versatile Impression 2000 sewing machine offers big performance with electronic features. It is an ideal machine for all sewers, craft and quilting enthusiasts, who will appreciate the incredible selection of stitches and accessories.

▶ Electronic speed adjustment allows you to choose the most comfortable sewing speed for your project

▶ The Impression 2000 converts from flat bed to free arm by simply removing the extension table/tool box – ideal for sewing trousers and sleeves

▲ Choose from the 66 built in stitches by simply pressing the button

▶ One-touch control for start/stop, reverse and needle up/down position

◀ Stitchmaster's latest technology makes needle threading quick and easy
